Strong as a BEAR – The Book

As we celebrate our 100th anniversary this year, we have taken the time to capture our history, spirit and legacy in a beautifully crafted book. In the process, we have discovered new interesting details about our company. The book also shows you the proud craftsmanship of today's BEAR Varimixer production. Make sure to contact our Area Sales Managers for your personal copy.

List price 875.00 €.

International Teddy 5L

Before new Nordic dining was introduced, most restaurants were inspired by German, Italian and French cuisine. As a tribute to the traditional masters of cooking, we have launched a limited number of Teddy's in these national colors. Use them to add a colorful spice to your daily production of baguettes, croissants, brezel, pizza and other culinary classics.

Open thru the summer

This BEAR never sleeps. Our factory will as always remain in full production throughout the summer holiday period to serve our customers.

Munich calling

At the IBA exhibition in September, we will demonstrate the recipe for 100 years of successful mixer production. A full line up of stainless steel mixers with an unbeatable level of hygiene, ergonomics and innovative functionality. All celebrated with a cascade of 12 Teddy's in customized colors. Visit us on stand no A6-311 on 12-17th September.

Kind regards,
The BEAR Varimixer Team
